DIRECTIONS

FOR USING THIS CIPHER CODE.

In order to prevent mistakes by telegraph operators, it is best, in writing messages, to begin every cipher word with a capital letter, and to leave a little space between each cipher.

When it is necessary to telegraph in ordinary language, and there is fear of its being misunderstood, begin that part of the message which it is desired should be read literally, with the cipher word "Rigor," which will be found on page 170.

Words to fill blanks in sentences must be placed in the order in which they should be read, immediately *after* the ciphers for such sentences, except where the sentences begin with a blank. In that case, the word for the blank will immediately *precede* the cipher for the sentence.

All quotations for "Future Delivery Contracts" sold in New York, are for basis of "Middling Uplands, American Standard classification, any grade from Strict Ordinary to Fair, inclusive."

Orders to buy or sell will be understood to be for account of the sender, unless otherwise stated.

In reports of purchases or sales, "for your account," will be understood, unless otherwise expressed.

Sterling Bills will always be understood to be drawn at 60 days' sight, and Domestic drafts at sight, unless otherwise stated.

All orders sent by this Code to buy or sell for Future Delivery in New York, will be with the distinct understanding that the purchases or sales so ordered are to be, in every respect, subject to the By-Laws and Rules of the New York Cotton Exchange relating to contracts for the Future Delivery of Cotton, and their settlement.

To express a price or quantity for which there is no "cipher" in the Tables of Numerals, use two or more "ciphers," the sum of which will express the desired amount; for example—"Bombast, Blood" will be read "5771."

To qualify quotations or estimates, use the Table on Page 12, in connection with the Table of Numerals; example—"10 to 10¼" will be expressed by the cipher words "Aloft, Bravery."

NUMERALS.

☞ *For sentences to be used with this Table to qualify quotations and estimates, see page* 12.

☞ *For numerals for Future Delivery quotations, see pages* 191 *to* 196

The contracts dealt in at the New-York Cotton Exchange are for 45,000 lbs. of American Cotton, in about 100 bales, of any grades from Strict Ordinary to Fair, inclusive; delivery to be made at seller's option, any day from first to last day of the month covered by the contract, upon giving 5 days' notice to the buyer. Cotton can be delivered from dock or warehouse, and, if desired, the contract can be filled by two deliveries of 50 bales each, at different dates, provided 5 days' notice is given previous to each delivery. The contract price is on the basis of Middling Uplands, American classification; allowances and additions for grades below or above Middling to be adjusted according to the differences fixed by the New-York Cotton Exchange for like grades on the day of delivery. As the contract calls for "Uplands," no addition is made to the price, should Cotton of better staple be delivered.
